

CORPS GUARD

Safeguarding your people, 24/7

Security doesn't stop at the protection of a business's property and assets - the safeguarding of its people is also paramount. Whether your workers are operating remotely, in potentially hazardous situations or commuting at night through unsafe areas, Corps Guard provides an extra layer of personal security.

How does Corps Guard work?

The Corps Guard app is activated prior to an individual commencing a journey or placing themselves in a situation that may be unsafe. A signal is transmitted to the Corps Monitoring Centre and our highly trained operators will begin tracking the individual's movements.

Should the individual feel threatened or under duress at any time, simply shaking or tapping their smartphone or pressing their accompanying Corps Guard Bluetooth wristband instantly sends an alert to the Corps Monitoring Centre and designated emergency contacts. The alert page has a tracking data facility that displays an exact

Corps Guard benefits

- ▶ User friendly app available on the App Store or on Google Play.
- ▶ Enhanced levels of personal safety, 24/7
- ▶ Instantly sends alerts to emergency contacts and the Corps Monitoring Centre
- ▶ Immediate response from highly trained personnel
- ▶ Video footage that can be used to identify an assailant
- ▶ Cost effective protection

GPS location which is updated every 45 seconds so all emergency contacts can follow movements before, during and after an incident.

Depending on the nature of the alert, our Corps Monitoring Centre will immediately attempt to contact the person to establish their situation, contact the nearest member of the security team if the user is on site, or if the evidence suggests a threat to life, the local police are urgently informed

The users' mobile phone automatically sends audio and video footage to our Corps Monitoring Centre so they have full exposure to events that occur. This footage can be used to identify an assailant and used in a court of law.

The audio-visual recording is uploaded automatically to the user's account via the cloud and onto Corps Monitoring Centre's system so even if the phone is stolen or damaged, the evidence is still accessible.

Safeguarding your people

The vast majority of people keep their smartphone with them all the time, meaning personnel working in any industry can take advantage of Corps Guard. It is discreet, efficient and doesn't require the user to carry any additional equipment, making it a very cost-effective option that is always on hand, fully auditable and potentially lifesaving.
